

Joining *Real Reform New York*

Founded in April 2004, the Real Reform New York Coalition exists to effect systemic policy change, replacing the current inhumane, ineffective and wasteful Rockefeller Drug Laws with cost-effective, just, and community-based alternatives that do not rely on incarceration for low-level drug offenses. Real Reform New York is made up of dozens of organizations representing thousands of community members, activists, advocates, policy and treatment experts, and Rockefeller drug law survivors and their friends and families. We are the people’s movement for *real* Rockefeller reform. We are united as never before because we are the people who have the most to gain from real Rockefeller reform. We cannot afford to accept any substitutes.

Real Reform New York defines real reform as: 1.) Reducing sentences to levels proportionate to those for other non-violent crimes, and to bring New York into line with national standards. 2.) Restoring judicial discretion so judges can fashion just sentences based on consideration of the particular case and, when appropriate, sentence low-level offenders to community-based treatment. 3.) Delivering retroactive sentencing relief to currently incarcerated Rockefeller inmates serving unjustly long sentences. 4.) Expanding drug treatment programs and other alternatives to incarceration for diverted low-level offenders.
